## About This Game

**Work in World War 2 Tank Factory, Date Beautiful Girls, and Choose Your Side in Alternate History Visual Novel!**

Panzer Hearts is a story-driven game filled with romance and adventure. The setting is an alternate history WW2 where the warmongering “Empire” is terrorizing its friendly neighbors. The young men and women brainwashed by the Empire see the war of aggression as justified.

## Story

You take the role of a young, naive, brainwashed soldier, Bastian. Wounded in the battle, Bastian gets a second chance to serve the Empire in a factory building tanks. Some of the people in the factory are linked to Bastian's past and some to his future. They say love is blind, but in this case love and where it leads our young protagonist can completely change his future and the course of the war. A chain of events and a cry from his past make Bastian question his loyalty and his side in the war.

## Gameplay

The gameplay is visual novel style, so you read the story and make choices, which affect the game. We also have a special tank building minigame, where you get to build World War 2 tanks! As visual novels go, there is also dating. Your decisions with the girls might even affect the outcome of the war...

It's like playing a puzzle game, except the puzzle's not that hard to solve so you can enjoy yourself playing it without stressing yourself out that much.

Enjoyed myself with the asmr. Decent for the price. Great, real-world award in the game is something I've never seen before, and that's why I like it. I cannot recommend it enough! but the game has little bugs that developer should fix it because this game is good if continue to add features.. Funny, but a pain in the♥♥♥♥♥♥to launch and learn. Don't buy it, I think videos are enough to enjoy this game unless you are a airplane-fan.. Instead... Go shoot your load in the sink

And there's no need even because setting up a restaurant is super easy and it's instantly profitable. And then you just buy more restaurants...

[illegible]

As for recommending it i cant say as its not a finished product.. i touch myself as i play this game cause it makes me so erect that i cant help but jerk off to it as i play. ive never been so horny as when i play this game. every woman i have slept with cant get me nearly as horny or erect as this game can. when i play i feel as though im flying through the sky on a unicorn with its horn up my♥♥♥♥♥ my god i love the feeling this game brings to me. o my god is all i can say. please oh lordy i hope i dont go to hell for playING THIS GAME CAUSE WE ALL KNOW HAVING THIS MUCH FUN IS A SIN IN THE EYES OF OUR LORD AND HEAVENLY FATHER. im sorry for the caps i accidently hit it and didnt want to go back and erase what i had already written in fear that i might forget what i had written.. great game from my childhood and brought back lots of memories and laughs. if super graphics is what you're after don't bother.... but if you had this game as a kid and love the 90's feel then jump into it and feel those old school feels. It still rocks!!.

Played that kitten Natora Outfit for the first time - instant Boner

10/10

The DLC is good, and way better then my english though

in our steam discussion we have posted an installation guide and technical specification for setting up your own dedicated server. It will normally show up in the server list.
